Because you are bidding via text, you will receive an outbid notification each time someone outbids you. And, you will notice that once you join the auction you will receive a link to view all items.

No Smartphone? No problem!

Bidding Concierges and staff members can place bids for guests directly. It is fast and easy!

Bidding...

If the system “knows” you, you will be ready to bid!

1. If not the text will welcome you to the auction and ask for your name and credit card info.
2. You will then be invited to bid on an item by entering an item ID or by clicking on the link to the app.
3. You can find item # on the item cards set up at the event. **ALL** item numbers will have a zero first and **MUST** be inputted for it to register as an item and not a bid.
4. Once you have texted the item number, Bidr will tell you what the current bid is.
5. Simply text in your bid, **no \$** or **commas** needed.
6. You can confirm your bid as well as have the opportunity to “delete bid” if entered incorrectly.
